

Document capture done right – at the right price.

FileBound[®]
Capture Pro

**Unleash the transforming power
of Capture Pro today!**

FileBound Capture Pro... Document Capture Done Right – At The Right Price.

Successful Content Management Solutions require that you use efficient systems and processes for capturing and indexing incoming documents. Your ability to realize the operational benefits and return on investment promises from these solutions are dependent on it. FileBound Capture Pro delivers on these promises with the right mix of functionality, ease of use, scalability, and price-performance.

FileBound Capture Pro is what a successful solution looks like! Capture Pro is a third generation production capture solution offered by Marex Group, the providers of the FileBound Content Management Solution. When bundled with a FileBound unlimited user license, SaaS solution, or the FileBound Express network appliance, Capture Pro delivers results.
